## TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderrine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderrine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderrine. Save your hair! Try it!

## When Doctors Disagree.

Doctors know just as much about rum as other experienced and observing people, and no more.

That is evident whenever one compares the opinions of a group

the individual drinker. One man's drink may be another man's poison, but almost everything that is potent, whether money, rum, religion or love, is good or bad according to the form it takes and the man who takes it.—From Life.
